Thank you so much for all the help you have given me in getting our new Polo registered and on the road. I realised that the intricacies of the paperwork would be pretty difficult for me to manage on my own when I first considered importing the car myself. I am so glad that I discovered your registration service on the internet. I would not have been able to cope with all the obstacles, not least the UK postal strike, which you managed to overcome and deliver everything required with the minimum of fuss and maximum efficiency.

I wouldn't hesitate to recommend your company to anyone else who requires the services that you offer. I was impressed and very grateful for the personal care and attention you gave to sorting out the bureaucracy involved, and for keeping me updated with progress, without my having to chase you for information. Thank you once again for all the work.

With very best wishes
