Dear Mr Wilson

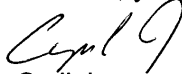

I would like to thank you and your Company for the fast and efficient manner in which you assisted me in buying my used Mercedes in Germany and importing it into England.

It took some time in finding the car that I wanted due to my demand for the right colour, specification and price, but even after three failures you continued to persevere with diligence and courtesy. I would not normally buy a car unseen, but the inspection that you gave the car and the favourable detailed report backed up with photographs that you sent me enabled me to purchase the car from the Mercedes dealership with confidence. After 2 weeks of use I am very satisfied with the car.

Whilst it would be quite possible to undertake such a task as buying a car abroad on ones own I feel the time, costs and above all aggravation involved would be many times greater than your fees. From collecting the car in Germany to having the registration completed and documents, RFL and no.plates in my hand was an amazing 7 working days.

I would not hesitate to use your services again or recommend them to anyone wishing to buy a car abroad for use in another country.

Wishing you continued success ,
I remain, yours sincerely,

Cyril J
